CAREER SUMMARY

A self-motivated and detail-oriented Junior Front-End Web Developer with a passion for building engaging user interfaces (UI) and delivering smooth user experiences (UX). Proficient in HTML, CSS, JavaScript, React.js, and responsive design principles. Seeking to contribute to real-world projects and grow within a forward-thinking team while learning from experienced developers.

TECHNICAL SKILLS

- **Languages: HTML5, CSS3, JavaScript**

- **Frameworks/Libraries: React.js, Tailwind CSS**

- **Version Control: Git**

- **Repository: GitHub**

- **Responsive Design: Media Queries**

- **Collaboration Tools: Slack, Jira**

PROJECTS

E-Commerce Website
Feb 2023 – Present

- **Developed an e-commerce website enabling users to browse categories, add items to cart, update quantities, and complete purchases.**

- **Implemented smooth scrolling, dynamic cart updates, and UI behaviors using HTML, CSS, and JavaScript.**

- **Researched UI/UX patterns from platforms like eBay and Amazon, documented findings in Notion, and incorporated them into the project.**

Calculator Application

- **Built a [calculator app](#) that performs basic arithmetic operations using JavaScript's** `eval()` **function.**

- **Displayed current local time using the JavaScript** `Date` **object.**

- **Inspired by the iOS calculator UI, with research into styling, color schemes, and logic for percentage calculations.**

Quiz App

- **Created an interactive [quiz app](#) with multiple-choice questions, instant answer feedback, and score tracking.**

- **Focused on responsive design and a clean, intuitive interface.**

- **Built entirely with HTML, CSS, and JavaScript.**

To-Do List Application

- **Developed a [dynamic task manager](#) allowing users to add, check, and delete tasks.**

- **Demonstrated DOM manipulation and use of JavaScript for dynamic updates.**

- **Researched and followed tutorials to implement best practices.**

Twitter Registration Page Clone

- **Designed [login and signup](#) pages mimicking Twitter's interface.**

- **Implemented button-based page switching and hover effects using HTML, CSS, and JavaScript.**

- **Focused on replicating real-world UI/UX behaviors.**

Accounting Website (UI Design)

- **Designed a [single-page website](#) for a fictional accounting and finance firm.**

- **Used HTML and CSS to build a professional layout inspired by real industry websites.**

- **Merged a passion for accounting with design.**

CONTENT CREATION

YouTube Channel: Stuck In Code
🔗 **youtube.com/@stuckincode**

- **Created and manage a growing YouTube channel dedicated to teaching beginners the fundamentals of front-end web development.**

- **Topics include HTML, CSS, JavaScript basics, DOM manipulation, building beginner projects, and learning tips.**

- **Focused on delivering clear, engaging tutorials that help others overcome the same coding roadblocks I faced.**

- **Demonstrates strong communication skills and a passion for helping others learn to code.**

NON-TECHNICAL SKILLS

- **Communication: Able to explain technical ideas clearly to non-technical audiences.**

- **Problem-Solving: Enjoy identifying and fixing bugs and UI inconsistencies.**

- **Collaboration: Experienced in team-based projects using Slack and Jira.**

- **Time Management: Skilled at balancing multiple tasks and learning initiatives.**

- **Adaptability: Quick to learn new technologies and open to feedback.**

EDUCATION

Bachelor of Science in Administration (Accounting Major)
University of Ghana – Accra, Ghana
September 2019 – September 2023

TRAINING

ADDITIONAL INFORMATION

- **Languages: Fluent in English, Intermediate in Spanish**

- **Interests: UI/UX Design, Web App Development**
